A WORD TO CONVALESCENTS .- Especial are should be given to the diet, take light food and but little at a time. Great care hould be taken not to take anything indiestible into the stomach.

Many persons when recovering from fevers have craving appetites, and not unfrequently, through the over attentions of the nurse, mix together in the stomach the most ncongruous articles of food; others, again, recovering from disease, have no appetite at all, and need some gentle tonic or stimulant to assist the internal organs of the body to perform their regular functions. To such we say, procure Roback's Stomach Bitters. IMPORTANT UALITIES, BRAN-DRETH'S PILLS SO STIMULATE at the interior powers of the system that every poison or impurity is forced from the blood into the bowels, and thus passes off. Recent cases of sickness will often be cured by the effect of six or eight Brandreth's Pills, which, when the operation is full and complete, leave the blood as free from poisonous and unhealthy matter as that of a new-born babe. In colds, inflammatory diseases, and even in cholera, their use restores to health sooner than all other reme lies, because they take from the blood and bowels those matters upon which pains, cramps, and

aches depend for continuance. Captain Isaac Smith, of Sing Sing, says thirty of Brandreth's Pills, taken according to directions, cured him of a very severe bronchial affection after other means had failed, and he wishes his numerous friends to know the fact.
